1947 TOWN WARRANT

Article 1. To choose by ballot and major vote, one Selectman for three years, one Selectman for one year, Town Clerk, Treasurer, Collector of Taxes and two Auditors for ensuing year.

Article 2. To choose all other necessary town officers.

Article 3. To raise such sums of money as are necessary for the support of the town poor and other town charges.

Article 4. To see what sums of money the town will raise for Maintenance of Town Roads and Bridges.

Article 5. To see if the town will vote to raise \$854.78 and the State's share to be \$3,419.11 for T.R.A.

Article 6. To see if the town will raise \$5,333., the State's share to be \$20,000. for the construction of the Waterhouse Bridge on the State Aid Construction Road.

Article 7. To see if the town will raise a sum of money for the Barrington Library.

Article 8. To see if the town will vote to raise \$69.00 for the Lakes Region.

Article 9. To see if the town will vote to raise \$75.00 for the Jr. O.U.A.M. for Memorial Day.

Article 10. To see if the town will authorize the Selectmen to borrow \$3,000.00 in anticipation of taxes.

Article 11. By Request. To see what action the town will take regarding instructing the Selectmen to have the roads of the town "broken out" when three (3) inches of snow have fallen.

Article 12. To see if the town will authorize the Selectmen to secure the assistance of the State Tax Commission in reappraising the taxable property in the town in order to secure greater equality as between taxpayers, and to insure the assessment of all property in the town on the same standard of value, and to raise and appropriate money to pay for the same.

Article 13. To see if the town will vote to petition the State Tax Commission to have an audit made by the Division of Municipal Accounting, and to make an appropriation to cover the expense of such audit.

Article 14. To transact any other business that may legally come before this town meeting.

W. H. FELKER,
HAROLD R. TAYLOR,

Selectmen.

WILLIAM RAMSDELL,

Fire Chief.

FOREST FIRE REPORT

Prevention is one of the most important phases of all fire effort. This is particularly true of forest fire control work. Preventing forest fires preserves valuable forest growth and other property, conserves man power and permits their use in productive channels, saves taxpayers' money and conserves fire fighting equipment.

The prevention of forest fires is the most important and difficult part of the work of your forest fire warden who heads a local organization set up primarily for the security of your community's forest property. Appointed by the State Forester, upon recommendation of the Selectmen, he is charged by law with the responsibility of local administration of forest fire laws, fire prevention and suppression. In his work he is aided by deputy fire wardens who, in emergency, may assume his power and authority. The warden is guided in his work by instructions received from the State Forester and by the District Fire Chief who represents the State Forester.

The importance and value of the work of the forest fire warden and his deputies is, perhaps, best appreciated during hazardous periods when fire danger is greatest. The public, however, looks to him at all times for speedy and economical suppression of going fires.

The careless smoker fails to properly extinguish his cigar, cigarette or pipe ashes or thoughtlessly throws them from the car window; the debris burner fails or refuses to consult the warden, as the law requires when the ground is not covered with snow, before attempting to burn; campers fail to properly extinguish their fires or frequently build fires when conditions are unfavorable.

The elimination of human causes from the forest fire problem is the answer. This is not as difficult of accomplishment as it might appear at first glance. Let each one who reads this—

1. Use ordinary common sense with fire in and near woodland.
2. Comply with requirements on the use of fire in and near woodland and when the ground is not covered with snow, secure written permission to burn from the forest fire warden.
3. Be careful when smoking in or near woodlands. Don't throw lighted material from moving vehicles.
4. Cooperate with and assist the warden and urge others to do so.
5. HELP YOUR FOREST FIRE WARDEN PREVENT FIRES—his efforts are only as effective as is the cooperation you give him!

HAROLD E. FLOWER,

Forest Fire Warden.

Acreage burned	38½
Number fire permits issued	11

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Barrington:

The present organization of the schools is as follows:

Room	Grades	Teacher	Pupils
Primary	I, II	Miss Florys E. Smith	29
Intermediate	III, IV	Mrs. Melba C. Ballou	31
Grammar	V, VI	Mrs. Frances Knowles	27
Junior	VII, VIII	Mrs. Ruth V. Scruton,	
		Principal	21
Additional II, III, V, VIII		Mrs. Charlotte Noyes	21
Total			129

Music Mrs. Sadie L. Merriam

For the third year, it has become necessary to organize a fifth classroom after the beginning of school, in order to relieve overcrowding. The building was designed for four classrooms, two grades or about 36 pupils in a room. When the enrollment in any classroom exceeds this, another room may well be provided, especially in the case of the primary room, where the beginners need an unusual amount of individual attention. It would seem to be a wise policy to plan on five teachers regularly, as at least one combination of grades is apt to have an excessive enrollment.

ENROLLED IN HIGH SCHOOLS

Total	52

With state and federal cooperation, the school lunch program has been resumed in Barrington, sponsored locally by the Parent Teachers Association. Valuable equipment, including a refrigerator, has been secured through the government's non-food assistance grant. The government also provides a certain share of each standard meal served, supplementing the moderate amount charged the pupils. Surplus agricultural commodity charged the pupils. Surplus agricultural commodity administration. The electric stove has been moved to a place near the sink, and the cupboards, including some new facilities, have been grouped near by. The PTA has furnished the services of Mrs. Kenneth Treble, who spends several hours each day in the lunch room, assisted by different parents. The food is served in the classrooms, an arrangement that seems to work very satisfactorily. It is intended to run the school lunch for 13 weeks during the cold weather. A partition, of the same classification as the rest of the building, should separate the lunchroom from the additional classroom.

Besides examining the children and contacting the homes in regard to health measures, the school nurse, Miss Myrtle V. Fletcher, arranged a "Toxoid" clinic for diphtheria immunization held June 6 at which 27 school children and 7 pre-school children received this invaluable preventive measure.

House Bill No. 12 embodies the state board of education's plan for increasing support to the schools. The legislative interim commission will also have recommendations, the content of which is not yet wholly revealed. Under the former plan, the state aid to Barrington for the current year would have been \$12,863, instead of \$5,117.97 as actually received. The revenue would come from sources available to the state, rather than local real estate. New Hampshire is now the only state in the Union that does not give state aid for high

school costs, and is low on the list in the proportion of school costs paid by the state. The plan calls for an appropriation of \$2,080,000, to be expended 55% for equalization, at the rate of \$75 per elementary pupil and \$100 per high school pupil, beginning at 60 cents on \$100 of equalized valuation for school costs, and extending to a maximum of \$10,000 (instead of \$6,000 as at present). The rest of the state aid, 45% of the appropriation, would be in the form of general aid, granted to all communities, on the basis of pupil membership, at a rate of not over \$37.50 per elementary pupil and \$50 per high school pupil. The cost of administering this increased aid would be no more than at present, since the details of the budget would be left more to the discretion of the local school authorities. As drastic increases in teacher's salaries must be made in most places in order to keep any teacher's at all, the districts are going to need the increased help provided by this plan. However, the aid may also be spent for any other school purpose, including payment for our building. The proposed law also provides that should the appropriation be insufficient for the aid contemplated, the pro-rata deduction would operate first on the general aid rather than on the equalization, so that the places having the most need would be the last to be deprived of the full benefits.

Dr. Edgar Fuller has become the new Commissioner of Education in New Hampshire. Dr. Fuller has had training in the law as well as education. He has had experience as a superintendent of schools, professor of education at Harvard, and director of aeronautics education for the federal government. With his encouragement, lay professional groups have been organized to study various phases of educational policy. Mr. Roy V. Swain was a member of the Strafford County group, and also the sub-committee which met in Rochester for more intensive discussion. A New Hampshire School Boards

Association has also been organized, which has held a well-attended meeting at the State House.

THE SCHOOL CALENDAR

The School Calendar, as adopted by the school board, provides for schools to be in session 180 days, which is generally accepted standard in well-regulated school districts. From this total are deducted the days of official state institutes, attended by the teachers. These include the county or regional institute, and (in the smaller districts) the rural institute, but not the state convention, which is a voluntary organization. As the school year can not be shortened beyond the required limit except by permission of the State Board of Education, any excess of no-school days is liable to prolong school in June. The calendar as arranged is designed to secure for the district the services of the teachers, transporters, and other employees of the district for the full term for which they are employed.

Respectfully submitted,

CHESTER W. DOE,

Superintendent of Schools

January 18, 1947

HONOR ROLL OF PERFECT ATTENDENCE FOR ONE YEAR

Carol Harris, Arnold Fall, Barbara Neal, Maurice Wheeler, Betty Bailey, David Faist, Albert Gaunya.

SCHOOL BOARD'S ESTIMATE FOR 1947-1948
